### IMPORTANT NOTES

This version consists of TWO PIECES OF WORK per week for each subject, one given at the start of the week (Short Task) and one towards the end (Long Task)

**LESSON 1:** This will be set early week in the style of a quiz and will focus on testing you on what you already know. It will be a series of questions that should not take too long and have to complete before the next session. Uploaded by 12pm

**LESSON 2:** This will be your longer Assignment or Project and this will include a tutorial for you to watch before starting the work. This tutorial will be uploaded on the day and time the Long Task is assigned to you. You have 5 days to complete the work and then it needs to be submitted so teachers have time to mark and give feedback. PLEASE NOTE YOUR WORK MAY NOT GET MARKED IF SENT BEYOND THIS DATE.
